

Halloween Fun!

Here is an idea we have been talking about. Make up stickers or tags to stick on the Halloween candy you are giving out on the week of October 27th to your patients. There is no offer here, but just a gentle referral reminder.

editable layout:

Copy and paste several to a page and play around with it. Print it on Avery labels to stick on a candy bar or just tape or ribbon it to the candy.

Go to the dollar store and get a jar, fill it with candy corn and put it at the front desk. Have patients guess the number of candies in the jar. The patient that comes closest wins the jar and \$5-10 in "clinic cash".
